

Kanji's

It is the pictorial script wherein a picture denotes an idea. Kanjis were adopted from the Chinese script thousands of years ago. Earlier the kanjis used to be very complicated. Later they were simplified with the intention to increase literacy among the public. There are two types of readings for any Kanji. Reading is the way a Kanji is being read or pronounced.

Onyomi ∴ These are the Chinese readings and are written in Katakana.

Kunyomi ∴ These are the Japanese readings and are written in Hiragana.

①	人	人	ひと / nin / jin hito = person
